Summary

Skilled developer with experience in backend and frontend development, proficient in building scalable web applications and solving algorithmic problems, seeking opportunities for growth and meaningful impact.

Education

2024 – 2027	BCA	at	JECRC University	CGPA: 7.1
2024	Class 12th (CBSE)	at	Krishna Public School	71%
2022	Class 10th (CBSE)	at	D.A.V. Public School	84.6%

Technical Skills

Languages: C++, Python, JavaScript, HTML, CSS
Frameworks: Node.js, Express.js, Tailwind CSS
Database: MySQL, MongoDB, Supabase
Tools: Git, GitHub, VS Code
Software: Vercel, MongoDB Compass, Render

Projects

ExpenseOS | *Node.js, Express.js, MongoDB, Tailwind CSS* [GitHub](#) | [Live Demo](#)

- Developed a full-stack expense management application using **Node.js**, **Express.js**, and **MongoDB**.
- Implemented secure **user authentication**, **expense tracking**, and **CRUD operations** for efficient financial management.
- Designed responsive dashboards using **Tailwind CSS** with real-time expense visualization and category-based organization.
- Deployed the application using **Vercel** and integrated a scalable backend architecture for reliable performance.

Portfolio Website | *HTML, CSS, JavaScript, Tailwind CSS* [GitHub](#) | [Live Demo](#)

- Designed and developed a responsive portfolio website using **HTML**, **CSS**, **JavaScript**, and **Tailwind CSS**.
- Implemented reusable **UI components** and optimized layouts to enhance user experience.
- Applied **responsive design principles** to ensure compatibility across desktop and mobile devices.
- Deployed the website on **Vercel** for reliable hosting and improved performance.

Netflix UI Clone | *HTML, CSS, JavaScript* [GitHub](#) | [Live Demo](#)

- Developed a responsive clone of the Netflix landing page using **HTML**, **CSS**, and **JavaScript**.
- Executed reusable **UI components** and modern layouts to replicate the original interface.
- Applied **responsive design techniques** to ensure cross-device compatibility and consistent performance.

Problem Solving

- Solved 50+ Data Structures and Algorithms problems on LeetCode.
- Strong understanding of Arrays, Strings, Hashing, Binary Search, Two Pointers, and STL.

Certifications

- Python for Data Science, AI & Development** – IBM (Coursera) [Credential](#)
- Databases and SQL for Data Science with Python** – IBM (Coursera) [Credential](#)
